

Ben Stiles, DC, DACBR
Email: stilesdacbr@gmail.com
Website: www.stilesdacbr.com

Credentials:

Dr. Stiles graduated with honors from Cleveland University (Cleveland Chiropractic College – Kansas City) in 1998. He earned his Diplomate of the American Chiropractic Board of Radiology in 2001. Dr. Stiles has been an instructor, clinician, and radiology consultant throughout his career. Since 2017 he has focused on his film reading practice and teaching. He has lectured nationally about radiology and x-ray technology/technique/patient positioning to both doctors and chiropractic assistants throughout his career.

Title:

Report Writing Part 3: Malpractice In Radiology And Case Review.

Goals:

To help doctors improve their radiology report writing and interpretation skills, discuss chiropractic cases that can impact their practice, and share research with an emphasis on radiology malpractice. Dr. Stiles' videos were created with the intention that the attendees are sitting with him and discussing the chiropractic cases instead of lecturing to them as if on auto pilot. Each case walked into a chiropractic office and was managed by a Doctor of Chiropractic so there is direct clinical implication for each case.

Syllabus:

Hour 1: Introduction of Dr. Stiles

Case 1: 71-year-old female with hip pain, diagnosis and outcome withheld
Research article review, malpractice liability of radiology reports and minimizing risk

Hour 2: Case 2: 80-year-old female with back pain, diagnosis and management withheld

Research article review continued, malpractice liability of radiology reports and minimizing risk
Research article creating a good radiology report
Discuss improving digital x-ray quality

Hour 3: Case 3: Case of unknown and management

Case 4: 35-year-old male with low back pain, diagnosis withheld
Case 5: 10-year-old male with wrist pain, diagnosis withheld
Research article continued, busy reports

Hour 4: Research article continued, report templates and outline

Case 6: 16-year-old male with low back and hip pain, diagnosis withheld
Review of information presented on report writing during the seminar
