

New and Miscellaneous Points Part 2

Jenny Crosby Wiemann, DC

Objectives: To familiarize the practitioner New & Miscellaneous Points and the Channel System.

First hour First 15 minutes

Review and synopsis of Part I

Channel theory

Primary and Classical channels

Inner Classic of the Yellow Emperor - a review of this text

14 Classical Channels review

8 Extraordinary Energy review

16-30 minutes

Function of the connecting channels - review

15 Luo points reviewed

Muscle channels (Sinew) reviewed

Cutaneous channels reviewed

31 to 45 minutes

N-HN-50a to N-CA-10 point location and clinical indication

45-60 minutes

N-CA-11 to N-BW-12 point location and clinical indication

2nd hour first 15 minutes

N-BW-13 to N-BW-22 point location and clinical indication

16 to 30 minutes

Symptoms of Schistosomiasis

N-BW-23 to N-BW-38 point location and clinical indication

31 to 45 minutes

Pelvic floor dysfunction what it is and the symptoms it can produce

N-BW-39 to N-UE-7 point location and clinical indication

46 to 60 minutes

Scabies - demographics, symptoms and treatment

N-UE-8 to N-UE-21 point location and clinical indication

3rd hour first 15 minutes

N-UE-22 to N-LE-1

Polio a discussion of its demographics and symptoms with information on the NY wastewater polio

16 to 30 minutes

N-LE2 to N-LE-11 point location and clinical indication

Foot eversion vs foot inversion vs normal

31 to 45 minutes

N-LE-12 to N-LE-22 point location and clinical indication

Iliotibial band - etiology and symptoms

45 to 60 minutes

N-LE-23 to N-LE-36 point location and clinical indication

4th hour first 15 minutes

N-LE-37 to N-LE-44 point location and clinical indication

ST36 impact on cortical excitation and inhibition - research review

Tinea pedis - symptoms and treatment protocols

16 to 30 minutes

Genu Recurvatum

Etiology (non traumatic and traumatic)

How to evaluate and treat genu recurvatum

N-LE-45 to N-LE-48

Esophageal Cancer - risk factors and symptoms

31 to 45 minutes

Esophageal cancer risk factors and symptoms continued

N-LE-48 to N-LE-51

Review on percentage of older adults dealing with incontinence

Anmian use with channel meridians improve quality of sleep more than channel points alone - review study

45 to 60 minutes

Dysentery - etiology, demographics and symptoms a review

N-LE-52 to N-LE-59
